

## **Instructions for cutting Liquid Glassed Vanity Tops**

**To cut Faucet holes through Liquid Glass:**

**Tools Required: Spade bit size required per Faucet instructions.**

**To cut Sink holes through Liquid Glass:**

**Once determined where to cut per your specific needs**

- 1. Apply tape in area that the jigsaw will come into contact with the liquid glass surface. This will prevent scratching the liquid glass finish.**
- 2. Drill Start hole**
- 3. Draw cut line on tape**
- 4. Use Metal cutting blade in jig saw**
- 5. Remove tape carefully**
